# Welcome to HEBE's world...

Social commitment, environmental protection and promotion of high-level craftsmanship that preserves traditional know-how and creates wearable art works with attention to every little detail.

These are the salient points of the philosophy of HEBE Athens, a brand of handmade, colourful, and simple luxurious sandals, founded in 2022 in Athens.

HEBE Athens creates sandals with clean lines capable of enhancing softness and comfort, combining genuine and sustainable leathers with carefully selected cotton fabrics.

All packaged by hand by small workshops throughout Greece.

The seasonal collections, as well as the limited edition series, are curated, exclusively for HEBE, by an in-house creative female team, who loves art, mythology and parties.

The artists are inspired by the Mediterranean sun and the ancient Greek civilisation.

HEBE Athens combines past, present and future.
